Level 1 Introduction to Yoga & Therapeutics:

These classes are designed for beginners and experienced students who want to learn or review the fundamentals of Anusara Yoga. You will learn the basics of Anusara Yoga, and the unique elements of "The Universal Principles of Alignment". Using the Alignment Principles you will diminish or erase pain in your neck, shoulders, back, hips, knees, wrists, and feet. Scientific Yoga breathing techniques will also be taught in this class.

Level 1 & 2 is for students who are able to take his or her yoga practice to a stronger degree. Beginners can start in these classes at any time if they are in fair to good physical condition. You are always encouraged to practice at your own pace. In level 1 & 2 classes Classical Hatha Yoga breathing techniques are emphasized and back bends and inversions such as head and shoulder stands are introduced.

Level 3 is a Vinyasa format and includes moderate to strong yoga routines. (Vinyasa is a Sanskrit word for flowing from one posture to the next.) Level 3 classes are guided as the instructor participates. You need a familiarity with a variety of postures and a working knowledge of Anusara Yoga's Universal Principles of Alignment. This practice is aerobic, powerful, hot and fun.

Meditation class is for everyone regardless of age, physical condition, experience or skill. Yoga meditation is the science of the soul and we use ancient and modern techniques and a peaceful environment to help us learn about ourselves. We use each other's spiritual vibrations and consistency to strengthen our own. We use the teaching of the great masters to guide us through the maze of life's questions and distractions.
